

Blue Fiesta: Celebrating Blue Colour Day

Pune, Maharashtra | 31st July, 2026

The campus came alive in shades of blue as the pre-primary, Grade I, and Grade II students celebrated Blue Colour Day with great enthusiasm and excitement on Friday, 31st July, 2026. The celebration was thoughtfully planned to help young learners recognise and appreciate the colour blue through engaging, hands-on, and interactive learning experiences.

The Pre-Primary section marked the occasion with a vibrant Blue Fiesta. Tiny tots arrived dressed in beautiful blue attire, while the classrooms were attractively decorated with a blue theme, creating a cheerful and stimulating learning environment. The Senior KG students confidently presented a role play on Community Helpers, highlighting the importance of the people who selflessly serve society. The Junior KG students participated in an engaging Float and Sink science experiment, exploring basic scientific concepts through observation and discovery.

Students also enjoyed a variety of hands-on activities, including printing, clay modelling, colouring, and sorting games, which enhanced their creativity, fine motor skills, and cognitive development. The celebration blended learning with fun, making it a memorable experience for every little learner.

The celebration continued for the Grades I and II students with an interactive programme held in the auditorium. Dressed in vibrant blue outfits, the students enthusiastically participated in activities designed to reinforce colour recognition in an enjoyable manner. The programme began with a lively quiz on blue-coloured objects, where students eagerly answered questions and showcased their knowledge.

They also watched an informative video highlighting the significance of the colour blue and its presence in nature and everyday life. The students further added to the festive spirit by singing a cheerful song on the colour blue, filling the auditorium with excitement and joy.

The Blue Fiesta successfully transformed colour recognition into a joyful learning experience across all the foundational years. Through creative activities, scientific exploration, music, role play, and interactive learning, the celebration fostered curiosity, creativity, and enthusiastic participation, leaving every child with colourful memories to cherish.
