

# The Road Safety Pledge

Pune, Maharashtra | 30<sup>th</sup> January, 2026

S.B. Patil Public School conducted a Road Safety Pledge as part of the National Road Safety Mission, with enthusiastic participation from all students. The pledge was administered within classrooms, during the mass assembly, and in a specially organised assembly. This initiative sensitised students to the importance of adhering to traffic rules and adopting safe practices while using public roads.

The National Road Safety Mission (NRSM) is a nationwide initiative aimed at making roads safer by educating road users — particularly children and young people — about traffic regulations, responsible behaviour, and essential road safety habits. Through a combination of awareness, education, and active engagement, the mission seeks to reduce road traffic accidents and fatalities across the country.

The mission focuses on equipping children and young people with the knowledge and skills required to stay safe on roads, whether they are pedestrians, cyclists, passengers, or future drivers. By instilling safe habits at an early age, it aims to create long-term behavioural change that contributes to saving lives.

The National Road Safety Mission strives to empower students with practical, real-world road safety skills while fostering a culture of responsibility and safe mobility among young citizens. With its extensive outreach, the initiative aims to engage millions of students and thousands of schools across India, reinforcing the collective responsibility of building safer roads for all.
